WORK EXPERIENCE

Cognizant Technology Solutions

Front End Developer • June 2022 - Present

- Utilized HTML, CSS, and JavaScript and Angular to develop a dynamic, interactive user interface that improved user experience
- Integrated APIs and developed cloud-native applications within Amazon Web Services to improve application functionality and scalability.
- Utilized Agile development methods to streamline project delivery and improve team collaboration.
- Developed unit tests to ensure code integrity and reduce the number of bugs found in production.
- Utilized version control systems such as Git to manage code changes and collaborate with other developers.

The Social Robin

Junior Web Developer • April 2022 - March 2023

- Acted as a bridge between clients and technical teams, interpreting client needs and translating them into appropriate website design and functionality using HTML, CSS and JavaScript.
- Optimized WordPress sites for performance by reducing page loading times and improving Search Engine Rankings.
- Developed and implemented custom WordPress/Wix themes that enhanced the user experience resulting in increased user engagement.

Vending Concepts

Web Content Developer • February 2022 - April 2022

- Developed engaging web/landing pages that delivered a positive user experience, resulting in increased website traffic and customer satisfaction.
- Produced high-quality, user-focused content within WordPress to enhance website engagement and user retention.
- Wrote and edited content for the company website resulting in increased web conversions.
- Generated high-quality visuals, videos, and web content that increased website traffic and user satisfaction.

Fire & Hammer

Web Developer Intern • January 2022 - November 2022

- Developed a creative portfolio that showcased my technological skills, creativity and design.
- Studied Software Development Life Cycles and practiced Agile Methodology.
- Participated in team meetings and contributed to the development process.

Apex Companies

IT Helpdesk Intern • July 2021 - October 2021

- Expedited customer service requests and resolved customer inquiries in a timely and professional manner
- Collaborated with IT staff to resolve complex customer service issues
- Managed company inventory system that maintained tracking of hardware and software assets.
- Configured and re-imaged computer equipment for deployment.
